

Smart Menus

Smart Choices

Menu Labeling Regulations would require fast-food and other chain restaurants to list calories, saturated plus trans fat, carbohydrate, and sodium on printed menus and calories on menu boards.

We don't expect people to order an item without knowing its price. Restaurants should disclose the nutritional price as well.

SANDWICHES	CALORIES	PRICE
HAMBURGER	280	.89
CHEESEBURGER	330	.99
FILET-O-FISH®	470	1.99
CRISPY CHICKEN	550	2.79
QUARTER POUNDER®	430	2.29
BIG N' TASTY®	540	2.29

We, the undersigned, urge you to amend the food code to require menu labeling in fast-food and chain restaurants.
