

## Universal School Meals – 2020 Social Toolkit

### Sample posts

#### Post 1

Universal meals can unlock success for students by ensuring that all students get two free, healthy meals every school day. Equitable access to healthy meals can level the playing field for students.

#SchoolLunchForAll

#### Post 2

Here's why we love #UniversalMeals:

-  Ensures all students receive a healthy breakfast and lunch
-  Removes stigma
-  Speeds up lunch lines
-  Eliminates unpaid meal balances
-  Provides steady budget for food service programs

#### Post 3

With #COVID19 increasing stress and strain for all families, #SchoolLunchForAll just makes sense. School food service programs will receive a steady budget, no burden on families to do paperwork, and kids get healthy meals.

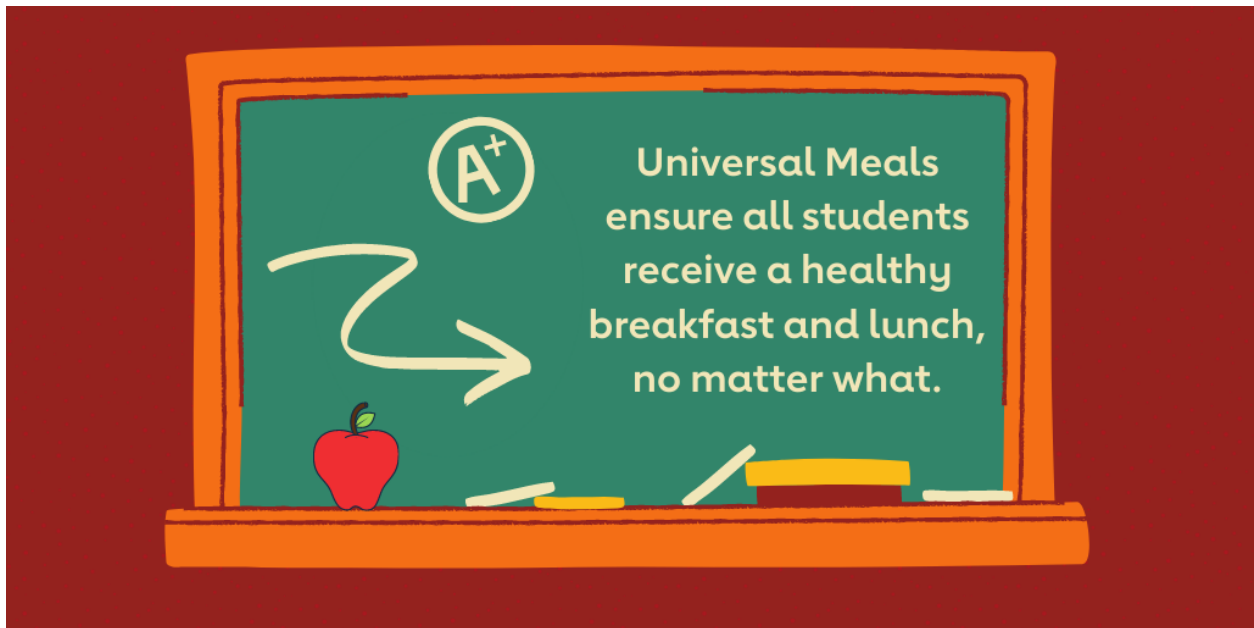

#### Post 4

We may not know what the school day will look like, but legislation for #UniversalMeals will give flexibility to programs so that they can keep feeding kids no matter what the new school day structure becomes in the fall. #SchoolLunchForAll

#### Post 5

With all eyes on ensuring #equity in schools, #SchoolLunchForAll legislation like the Pandemic Child Hunger Prevention Act, takes a huge step towards ensuring every student is on level playing field, equipped with a full stomach, and ready to learn. Thank you @BobbyScott!

Graphics

A school lunch tray is shown on a wooden surface. The tray contains a sandwich with lettuce and tomato, a side of sliced carrots, a small bowl of blueberries, and a small bowl of grapes. A red and white water bottle is partially visible in the background.

**It's simple:  
Universal Meals policies keep kids fed  
no matter what the new school day  
looks like in the fall.**
